ONE About Wanty

Wanty adheres to the purpose of "Quality is life, customer first, integrity first", and strives to serve customers with the most cost-effective products

ONE About Wanty

Since establishment, Wanty has always been paying close attention to the market demand, constantly developing new technologies and new products of the touch terminal, and gradually expanding the entire touch terminal chain.

After years of development, in order to better integrate the company's resources and provide customers with the most advantageous products, in 2016, all the Shenzhen production lines were relocated to Yongzhou, Hunan province. At present, Shenzhen office and Hunan factory have a total of more than 500 employees, with more than 20,000 square meters of standard clean plant.
